

It's a **PUZZLE** to me!

Centerpiece Pattern using
the DMQuilting 3.5"x5"
Puzzle Template and
Westalee Design TempLee
Quilting Technique

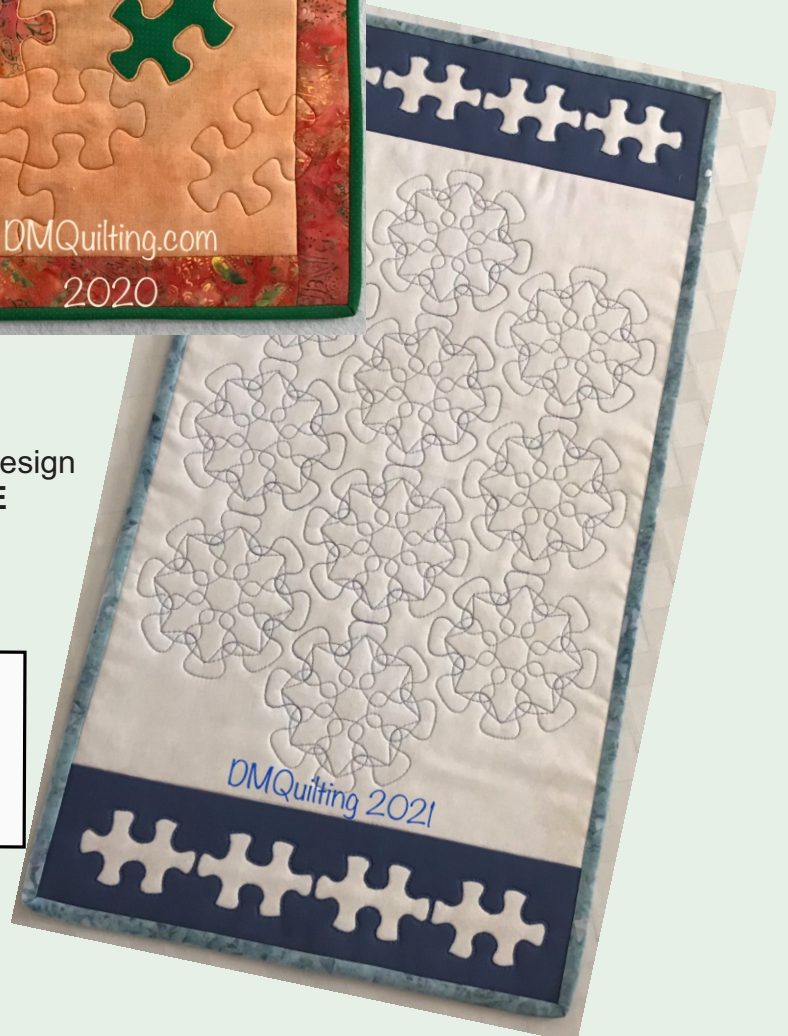

Approx. 32"x32"

A fascinating table runner with unique design
elements created with the **PUZZLE**
Templates!

Approx. 15.5"x30"

Fabric Requirements

- 1/2 yd each for Front, Backing & Batting
- 1 Fat Quarter for Borders
- Fusible Web for Borders
- Binding - 2 strips

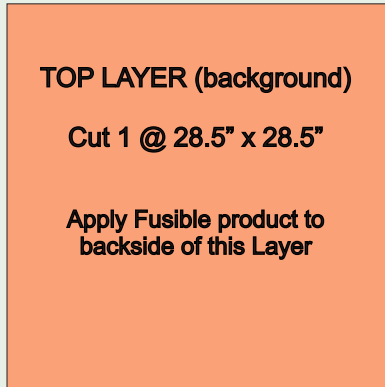

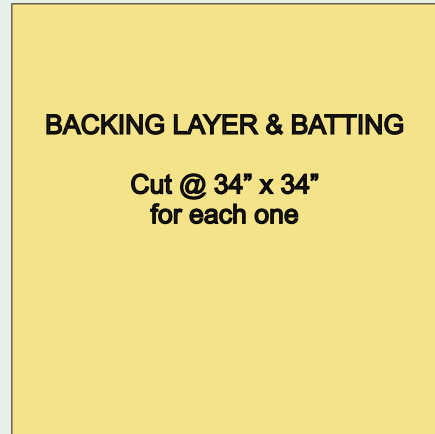

FABRIC REQUIREMENTS & PREPARATION

- Double sided fusible product is required when following the Westalee Design TempLee technique in this project. (TempLee-Fuse or a similar product is suggested.)
- Cut fabrics for each section and ID each as shown below.

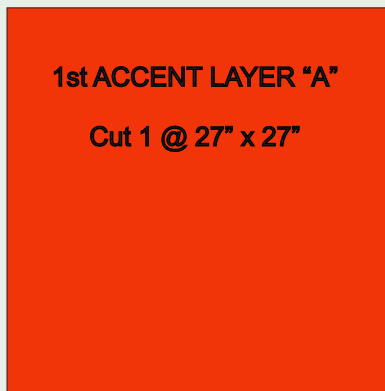

#1.

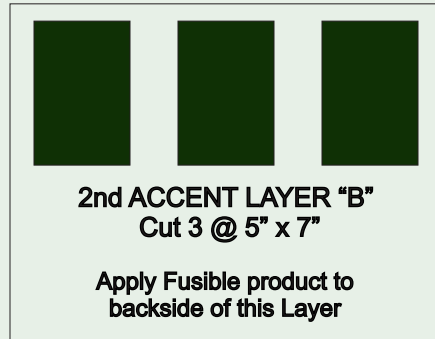

#2.

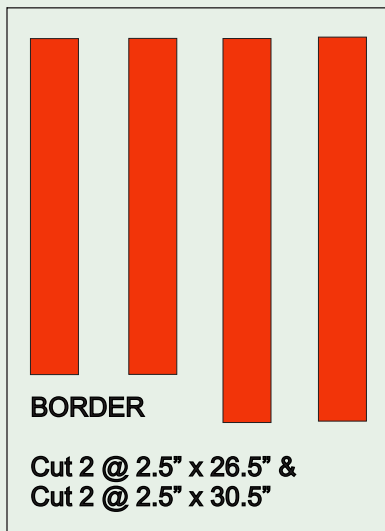

#3.

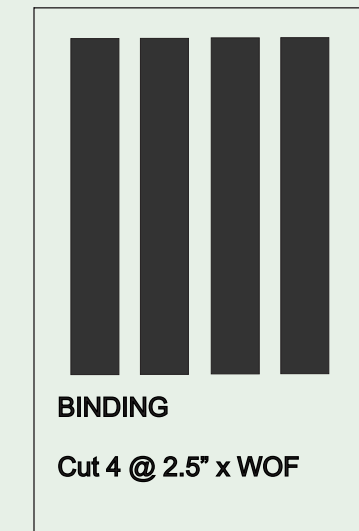

#4.

#5.

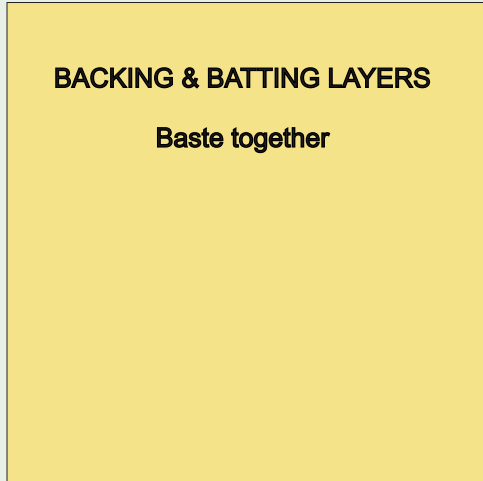

#6.

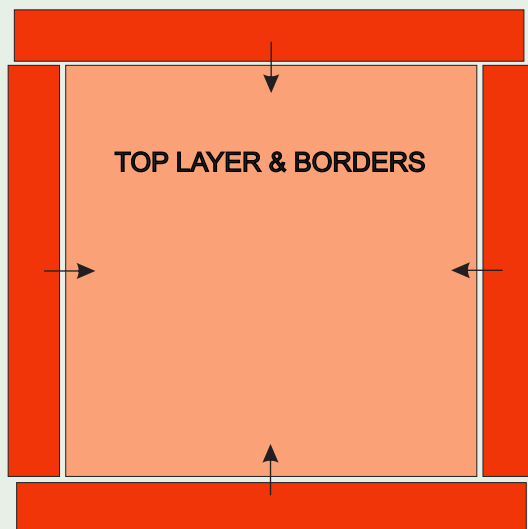

STEP 1

- Layer together Backing fabric and Batting layer. Lightly spray baste if desired. Set aside.

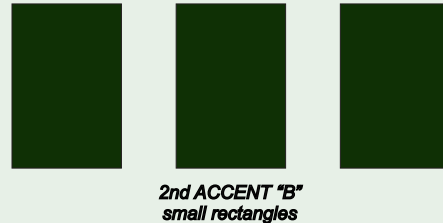

STEP 2

- Attach border strips to Top Layer "A" following arrows.
- Press seams toward borders.
- Apply double-sided fusible to wrong side.
- **Do Not Press** after protective sheet is removed until all stitching and cutting is completed.

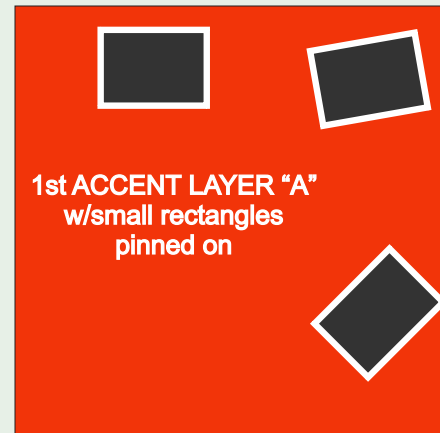

STEP 3

- Apply double-sided fusible to wrong side of 2nd Accent Layer B small rectangle units.
- Remove protective sheets.
- Do Not Press once protective sheets are removed

STEP 4

- Position 2nd Accent Layer B small rectangle units onto top of 1st Accent Layer A as shown.
- Use pin to temporarily hold in place briefly.
- Do Not Press once protective sheet is removed.

STEP 5 - PREPARE FOR STITCHING

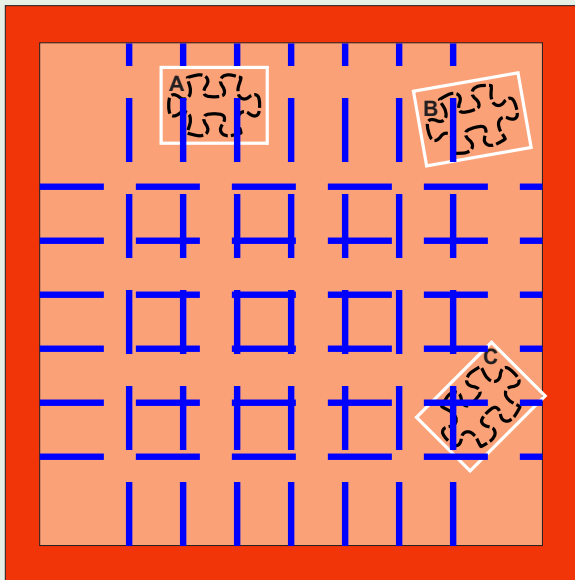

- Carefully center onto Batting side of Backing unit.
- Position Top Layer onto the 1st Accent Layer with small rectangles still pinned in place.
- *(Lightly mark these locations onto Top Layer if needed for location identification to be certain that PUZZLE stitch pattern is fully within the edges of this unit.)*
- Relocate pins to outside to keep the small rectangles from slipping during handling.
- Do Not Press once protective sheets are

Handle carefully when moving until stitched to avoid slippage of fabric sections inside quilting unit.

STEP 6

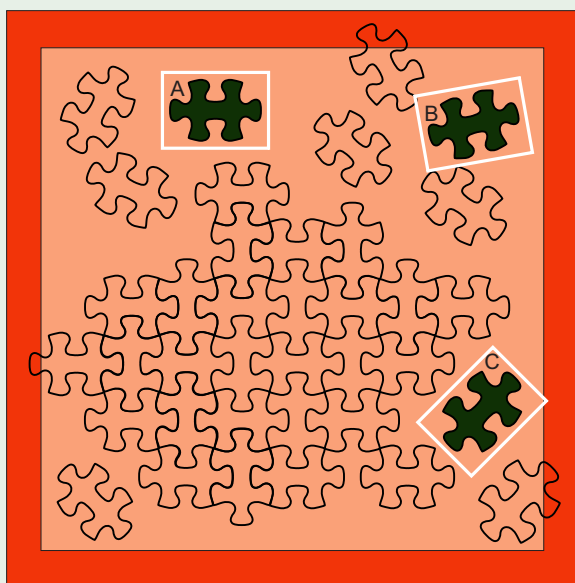

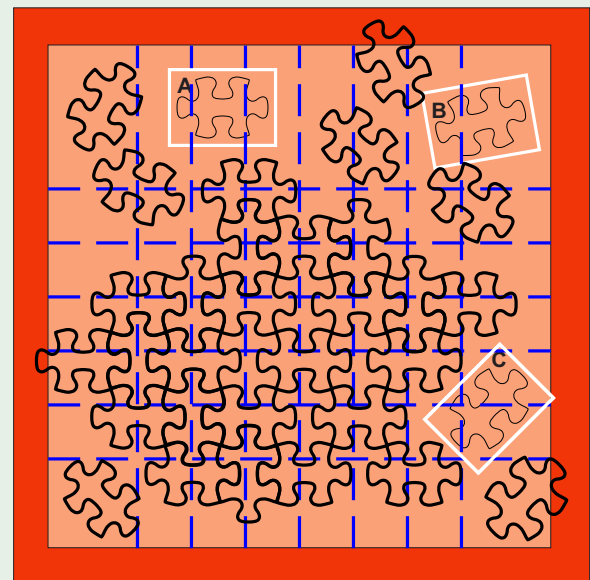

- For alignment, lightly mark both vertical and horizontal centering lines using short dash marks. Mark a 3" grid pattern beginning at center marking outward toward the borders. Use the DMQuilting Basic Marker for accurate measuring and marking the grid.
- Stitch PUZZLE patterns (A, B, C) on the small rectangle units shown below. Be certain to center the template over the area where the small rectangles are positioned before stitching those areas.
- Do Not cut away or press until all stitching is complete.

STEP 7

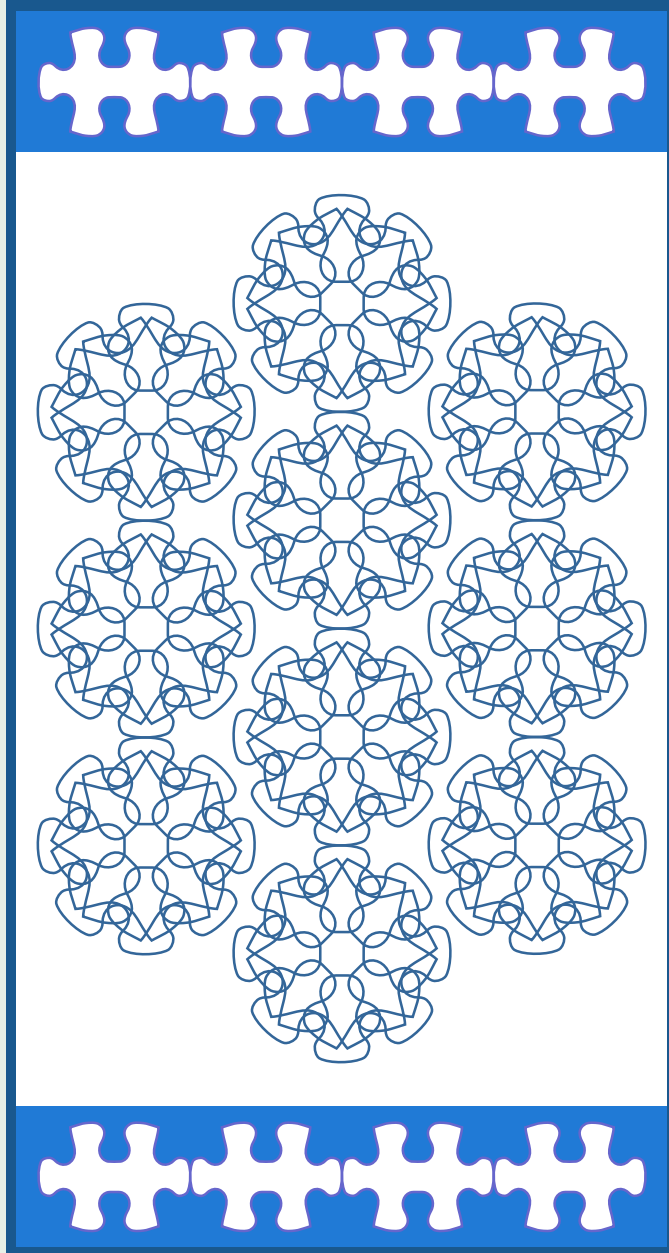

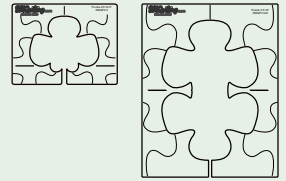

- Position 3.5"x5" PUZZLE Template to stitch the layout below. Follow the Template Instruction for placement ease using the method most comfortable.

DO NOT cut away or press until all stitching is complete.

STEP 8

- With all patterns stitched, follow the Westalee Design technique for TempLee Quilting and remove the top layer patterns as desired.
- Remove both the top and second layers to expose the 2nd ACCENT "B" for the small rectangle units to provide secondary fabric coloration.
- Once all removal cutting is complete, press all units together to fuse the entire piece. Trim and add binding to complete this project. Refer to cover photo as needed.

**DMQuilting
PUZZLE Template Set**
is used to create these unique
design elements for a fascinating
New Table Runner.

Fabric Requirements

1/2 yd each for Front, Backing & Batting
1 Fat Quarter for Borders
Fusible Web for Borders
Binding - 2 strips

#1. **TOP LAYER
Center Unit**

Cut 1 @ 17" x 32"

#2. **BACKING LAYER &
BATTING**

Cut @ 17" x 32"

#3. **Border LAYERS
Cut 2 @ 17" x 5"**

Apply Fusible
product to backside

FABRIC PREPARATION

- Cut fabrics for each section and ID each as shown.
- For Binding, use 2 strips of any fabric.
- Double sided fusible product is required when following the Westalee Design TempLee technique in this project. (Pellon Wonder-Under #805, Steam-a-seam light or similar product is suggested.) Only the BORDER LAYERS have the fusible product applied.
- Refer to diagram below to mark the Center Unit.

#1. **TOP LAYER Center Unit**
Cut 1 @ 17" x 32"

#2. **BACKING LAYER & BATTING**
Cut @ 17" x 32"

Center Unit #1
Mark Alignment Lines as shown

#3. **Border LAYERS**
Cut 2 @ 17" x 5"
Apply Fusible product to backside of these
SET ASIDE UNTIL QUILTING ON CENTER UNIT IS

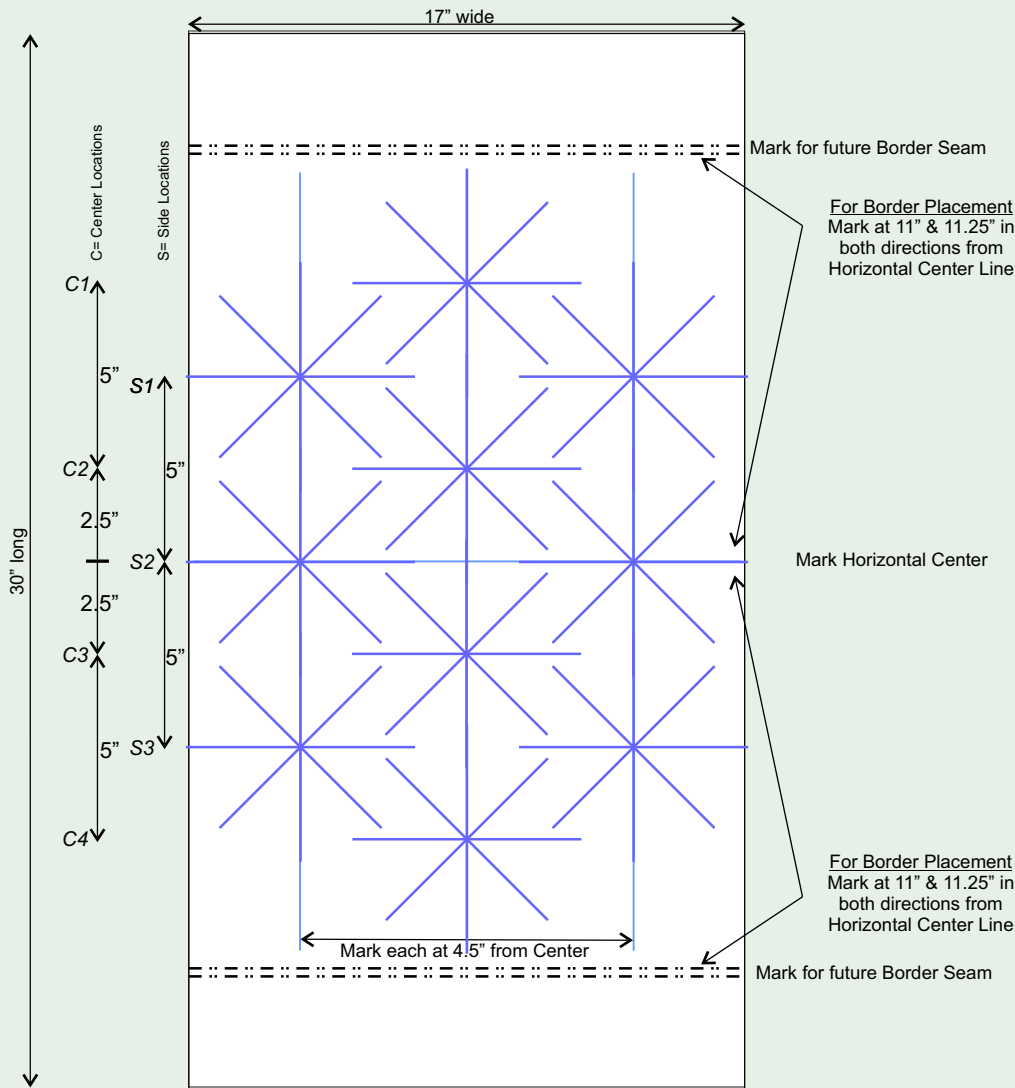

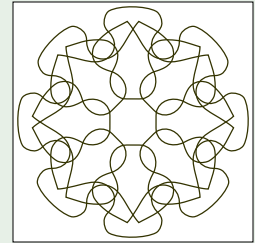

Table Runner Instructions

The larger **DMQuilting PUZZLE 3.5" x 5" Template** is used to create these unique design elements for the Center Unit of the Table Runner. See instructions below to stitch your fascinating new project which is sure to bring interest at your next gathering.

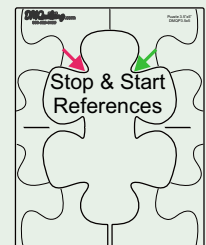

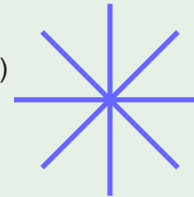

STEP 1

Complete markings on Center Unit for a total of 10 pattern elements as indicated on previous page. (Adjust pattern amounts to your liking if desired.)

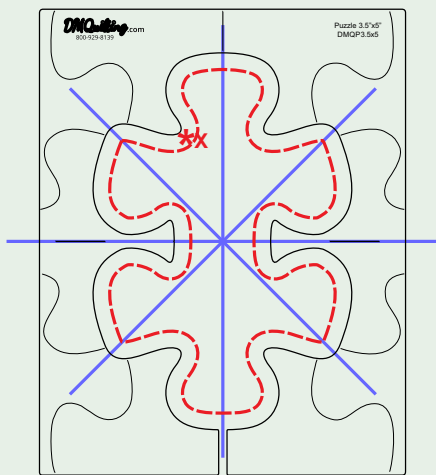

- At each element location, use the 8-Pt Crosshair to mark for 8 rotations approximately 6.5" in diameter each.
- Refer to Pattern Diagrams below for template placement and stitching sequence for the rotations. Begin at the **RED ***, the **GREEN ARROW** ↑ shows path for Travel Stitching to stop at the **X**.

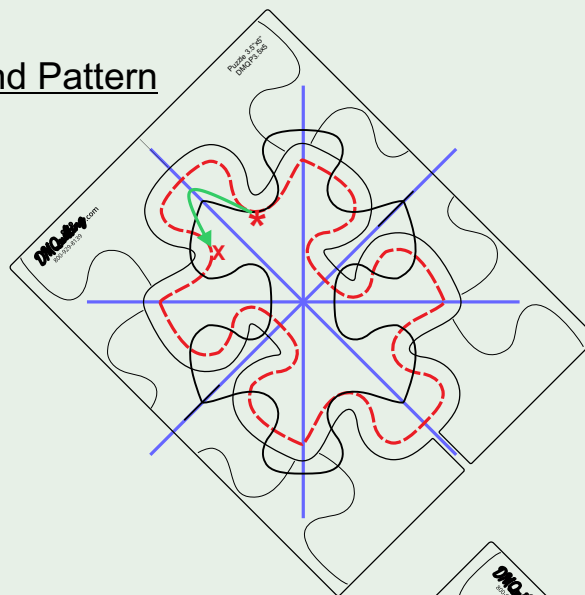

Mark 8 lines approx. 6.5" in diameter at each location

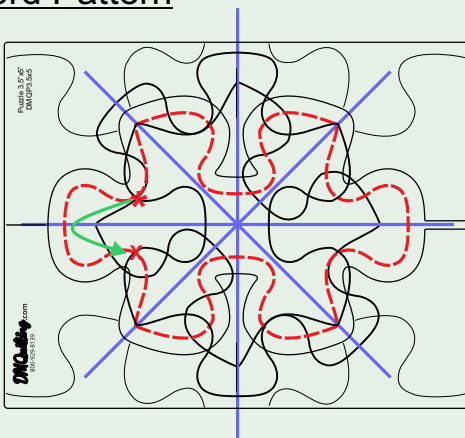

1st Pattern

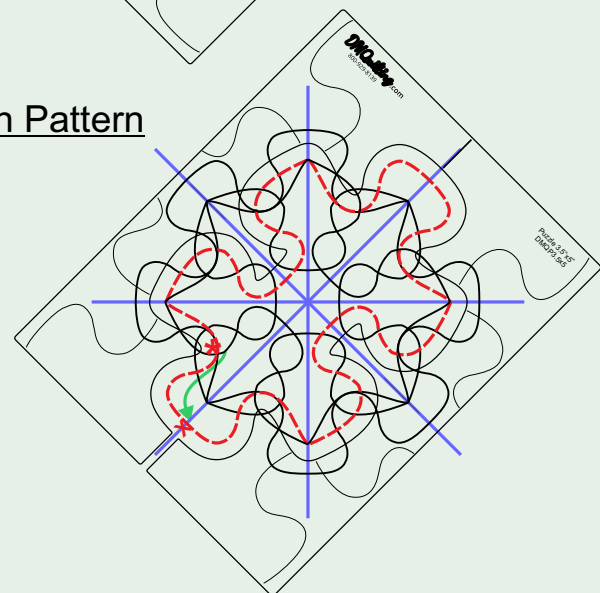

2nd Pattern

3rd Pattern

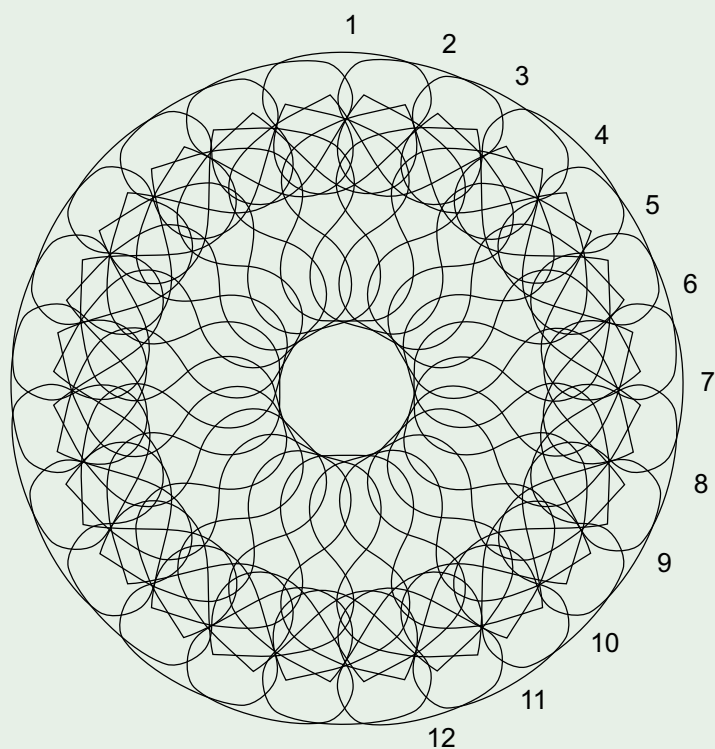

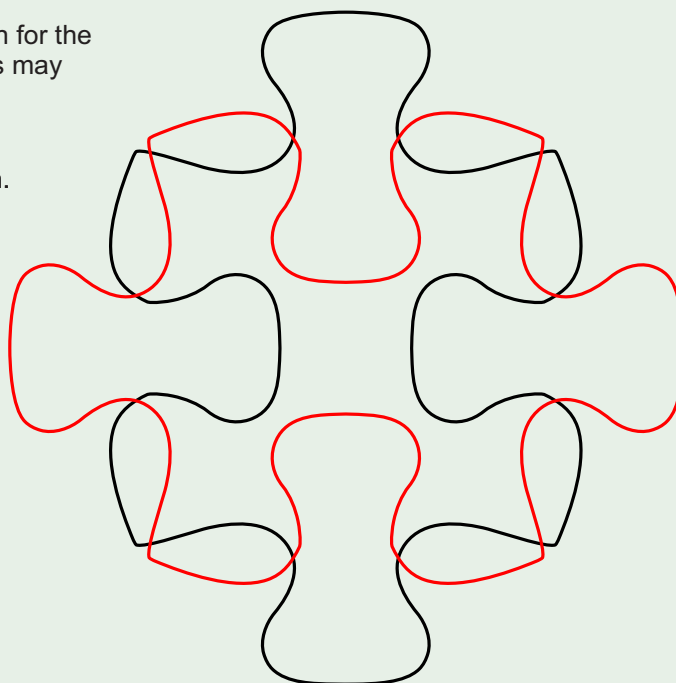

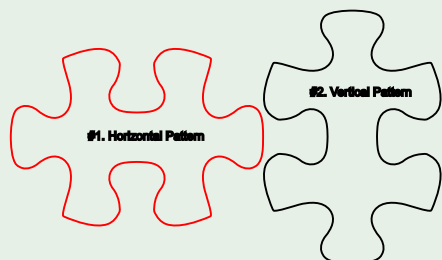

4th Pattern

Refer to the directions to create this Optional Design for the Center Unit Section. A combination of these designs may also be incorporated into your project.

Two alignment rotations are used for this option.

This more intricate design consists of multiple patterns stacked together yet is still just 5" in diameter.

- Add alignment markings for 24 rotations and only stitch half of them to create this optional design.
- Refer to the numbers on outside edge for clarification as needed.
